Primary School

Information Communication Technology (ICT) Strategic Plan 2017 - 2019

Co-ordinator: Carole Bulivou & Elizabeth Melville

Objectives: (Should be very broad / What are we going to focus on the next 3 years to improve student learning/ outcomes)

Students move towards being independent and responsive learners equipped to meet the demands of a global community in the 21st Century.

All students access technologies to develop skills to communicate with others in a positive, productive and empowering manner.

Improvement Targets: (Should be very broad / What are we going to focus on the next 3 years to improve student learning/ outcomes)

Students more confident, feels school is important and they tend to feel better in school (survey)

Pre-primary students independently log on and of computers.

Upper primary student use email to send work to their classroom teacher.

Science, Technology, Engineering and Mathematics (STEM) is supported through ICT

All Classroom staff members learn one new program per term.

Major Strategies: (General, broad strategies, can include instructional strategies)

Continue to develop the Web page

Two positive media exposures per term. Increased school hits on the website: school logo, web site and promotional banners.

Professional publication achieved and distributed in community. (School Improvement Plan)

Cyber Bullying program

On-going training for staff in use of interactive white boards.

All classes will produce a presentation in conjunction current curriculum programs

Resources: (Physical / professional / funding etc)

Replace computers over 8 years old

Ipad Apps to be regularly updated.

In house training for teachers as new technologies enter the school.
