Dear Parents and Caregivers.

- 1.The more you know about your child's school, the more you will be able to support your child's learning.
- 2.Involvement in schools by parents and carers helps children to achieve the best possible learning outcomes.

#### Benefits for the Parents

- Parents increase their interaction and discussion with their children and are more responsive and sensitive to their children's social, emotional, and intellectual developmental needs.
- Parents are more confident in their parenting and decision-making skills.
- As parents gain more knowledge of child development, there is more use of affection and positive reinforcement and less punishment on their children.
- Parents have a better understanding of the teacher's job and school curriculum.
- When parents are aware of what their children are learning, they are more likely to help when they are requested by teachers to become more involved in their children's learning activities at home.
- Parents' perceptions of the school are improved and there are stronger ties and commitment to the school.
- Parents are more aware of, and become more active regarding, policies that affect their children's education when parents are requested by school to be part of the decision-making team.

Kind regards  
Elizabeth Melville.
